CEO MESSAGE

As I reflect on the year gone by, I am filled with gratitude and pride for how far we have come together. This has been a year of growth, learning, and resilience for all of us at Bright Future.

More than ever, this year reaffirmed our belief that skill-building is the true key to empowerment. The world around us is changing rapidly, and young people today need more than education; they need the skills, confidence, and mindset to navigate life with purpose and courage. Every young person we reach is a reminder of why our work matters because when a young mind is empowered, a whole community transforms.

Our journey this year was filled with meaningful milestones. We expanded our reach, strengthened our programs, and deepened our partnerships. We also faced challenges that tested our patience and adaptability, but each one reminded us of the power of teamwork and the importance of staying rooted in our mission.

The systems and structures we built in earlier years became our strongest foundation, helping us deliver consistent impact while staying innovative and forward-looking. Above all, our progress was made possible through collaboration with our partners, donors, and our incredible team members who go beyond their roles every single day to make change possible.

As we look to the future, our focus will remain on building the capacities of people, systems, and partnerships. These are the pillars that will help us continue creating sustainable opportunities for the youth we serve.

What gives me the greatest hope is the spirit of our young people, their resilience, creativity, and determination to build better futures for themselves and others. They are not just the beneficiaries of change; they are the changemakers leading us into a brighter tomorrow.

To everyone who has been part of this journey, thank you. Your belief, support, and commitment continue to inspire us to do more and do better. Together, we will keep shaping a future where every young person has the opportunity to learn, grow, and lead with dignity. With gratitude and optimism,

Kishor Palve
Founder & CEO
Bright Future India

Vision

A Bright future for all young people

Mission

Facilitate young people to become changemakers in the community by developing their future skills

Integrity

We work with highest professional and ethical standards, and value transparency and honesty in our daily work

Equity

We approach and build each connection based on the unique needs of each stakeholder with utmost fairness.

Collaboration

We reach out to each other and work together in order to deliver best results and achieve common goals by making the most of unique and diverse talents.

Respect

We value and empathise with experiences and perspectives of everyone and treat our aspirants, partners, donors and each other with sensitivity and respect.

Accountability

We hold ourselves accountable for the quality of our work with respect to our aspirants, partners, donors and each other.

About

BRIGHT FUTURE INDIA

Bright Future India was founded in the year 2009, as an initiative of New Resolution India, to bridge the critical gap between education and employment, focusing especially on the youth from marginalised background. Bright Future recognises that youth from underprivileged background lack access to quality education and opportunities. Bright Future aims to empower the young people to shape their own lives and drive meaningful change within their communities. Bright Future believes that the youth hold the potential to transform the society however their abilities are affected given the systematic barriers, that restricts their progress. Bright Future through its three-fold approach which has evolved as a result of its deep engagement with the youth and in the sector of livelihood focuses not only on the Individual alone, but also their family and the community at large. It provides young people with the tools and guidance needed for them to overcome these barriers. Our work goes beyond mere employment and rather facilitates a process where the individuals are motivated to realise their leadership skills, and resilience that eventually enable them to become agents of change in their communities. Building on our core mission to bridge the gap between education and employment, we have gradually developed a range of programs that address the key challenges faced in achieving this goal. Our efforts focus on empowering youth and children through initiatives such as Buniyaad, Bulandi, Badi Soch, Aasman, the School Program, Career Khoj, the Youth Advisory Committee, and Alumni Engagement. Through these diverse programs, Bright Future provides comprehensive support at various stages of the career-building journey, including mentorship, training, internships and placement opportunities. Our objective extends beyond equipping young people with job-related skills; we aim to nurture their capacity to become changemakers who contribute to their personal growth while working toward the betterment of their communities.

OUR JOURNEY

2009-2010

Officially registered under the Bombay Trust Act on 23 Sept 2009, Bright Future began in 2010 with Mr. Kishor Palve launching a 6-month Guidance Program for aimless youth.

2012-2020

Bright Future expanded its footprint in 2012 with a School Program across four schools, reaching 450 students and 40 youth through holistic engagement with parents, teachers, and mentors. The program expanded to six schools, impacting 481 students and 32 youth, while training 247 parents and 137 teachers. By 2020, Bright Future earned global recognition, hosted Global Probono Summit delegates, received the GuideStar India Platinum Seal and Tech Mahindra Foundation's Best Smart Centre Award.

2021-2023

Bright Future gained global recognition, achieved key awards, trained 1,756 youth, reached 2,917 students, and during the pandemic launched Mission RAAHAT, supporting 40,000+ families while strengthening hybrid learning and inclusion.

YEARLY HIGHLIGHTS

STEM Lab Launch: Igniting Innovation for Students

Launched on 9th October 2024, our STEM Lab brings the world of innovation directly to the students. From robotics and electronics to design thinking and coding, the lab creates an environment where students can explore their potential beyond traditional classrooms.

Building Pathways Across India's Cities

Bright Future scaled its footprint in 2024-25 by launching five new centres in Mumbai, Delhi, Hyderabad, Bengaluru and Ahmedabad. This strategic expansion enables us to reach more young people, deepen community connections, and build stronger pathways to transformative education and employment across urban India.

A Strategic Move Toward Deeper Impact

We transformed our operations by moving into a new Support Office and expanding our footprint across Delhi, Telangana, and Karnataka to create stronger youth career pathways.

A Year of Partnerships, Learning & Youth Empowerment

India CSR & ESG Summit

Our participation in the India CSR & ESG Summit strengthened partnerships and highlighted how youth-led initiatives shape sustainable change.

Residential Training

Our Residential Training brought teams together for a powerful, shared learning experience.

Yuvarambh Event

Yuvarambh brought together youth voices, aspirants' journeys, and meaningful industry interactions, all on one powerful platform.

Great Place to Work®: A Testament to Our People

This Year of Transformation reaffirmed what we've always believed - that our greatest strength lies in our people. **Earning the Great Place to Work® Certification is more than a milestone;** it's a celebration of the trust, learning, and growth we've built together.

Our Alignment with SDGs

By prioritising community needs, livelihood development, and other critical areas, Bright Future actively contributes to five of the 17 Sustainable Development Goals (SDGs) set by the United Nations.

1 NO POVERTY

In alignment with the global goal to end extreme poverty by 2030, Bright Future empowers young people to achieve financial independence and stability. By helping youth from underserved communities build employable skills and access meaningful job opportunities, many young aspirants now earn over ₹450 per day on average, moving their families closer to financial stability and a brighter future.

4 QUALITY EDUCATION

Supporting the global goal to increase youth and adult employability by 2030, Bright Future delivered vocational training and career guidance to young people in 2024-25. These efforts empowered them to secure meaningful job opportunities and build essential skills for long-term professional success.

5 GENDER EQUALITY

Committed to promoting equal opportunities, Bright Future ensures inclusive participation of young women in its programs. Of all registered aspirants, 62% (3,841) are female. Among them, 2,369 women have successfully secured employment, gaining financial independence, confidence, and contributing meaningfully to their family income and community development.

8 DECENT WORK AND ECONOMIC GROWTH

In alignment with SDG 8, which emphasizes sustained, inclusive, and sustainable economic growth, Bright Future focuses on reducing the number of youth not engaged in education, employment, or training. Through career awareness programs and job placement initiatives, the organization enables young people to access decent work opportunities and contribute meaningfully to the economy. These efforts not only support individual growth but also foster community-level economic resilience and productivity.

17 PARTNERSHIPS FOR THE GOALS

Bright Future believes that meaningful transformation is possible only through strong partnerships and collective action. Our collaborations with corporates, educational institutions, government bodies, and community organizations have been instrumental in expanding our reach and impact. Through these partnerships, we have mobilized resources, enhanced employability programs, and created opportunities for youth from underserved communities to thrive.

By fostering shared learning, innovation and accountability, Bright Future plays a vital role in driving sustainable development.

BUNIYAAD

FIRST STEP TO LIVELIHOOD

845

Students
Reached

136

SEL Sessions
Conducted

74

CIA sessions
conducted for
6th to 10th Std

PROGRAM OVERVIEW

This year, Buniyaad became the spark of transformation for hundreds of adolescents, helping them see education not just as a routine, but as a powerful tool to shape their destiny.

The Buniyaad Programme lays the foundation for a brighter future by nurturing adolescents at a crucial stage in their lives. Designed for students in Grades 6th to 10th, it creates a positive and engaging school environment where young minds learn to dream, decide and design their futures.

Through focused interventions in Career Interest Awareness, Social Emotional Learning (SEL), STEM, Arts, Sports and Vocational Training, Buniyaad equips students with essential skills, values and self-belief, transforming classrooms into spaces of discovery and purpose.

GOAL

To encourage students to instill lifelong habits, skills and mindsets that will help them navigate challenges and seize opportunities effectively.

STEM

The National Science Foundation predicts that 80% of the jobs created in the next decade will require mathematics, science, and technology skills. As India moves toward a digital and innovation-driven economy, strong STEM education has become essential. Quality STEM learning nurtures critical thinkers, problem solvers, and innovators, yet many children in public and low-income private schools continue to have limited or no access to hands-on STEM experiences.

To bridge this gap, Bright Future launched the **“STEM Rise Program”**, a comprehensive initiative aimed at strengthening STEM education with a special focus on increasing girls participation in science and technology.

Implemented at Shivaji Shikshan Sanstha Multi-Purpose Technical High School, Ghatkopar Mumbai, the program engaged 254 students from Grades 6 to 8, of whom 52% were girls. The program introduced students to foundational STEM concepts through robotics, coding, digital literacy, and computational thinking, helping them build core future-ready skills.

Buniyaad aligns strongly with SDG 4 : Quality Education, specifically:

- 4.4.1: ICT skills (Robotics, coding, digital literacy, computational thinking)
- 4.1.1: Improvement in math and science proficiency
- 4.3.1 / 4.5.1: Access to quality technical and vocational education

Conceptual Mastery Skyrocketed

Students' foundational STEM conceptual understanding increased from 42% to 94%, successfully transforming passive memorizers into active thinkers.

Robotics Awareness

Robotics awareness, a key future-ready metric, surged from a 35% average baseline to 95% endline awareness.

Real-World Application Skills Quadrupled

Understanding of practical concepts, such as Battery Connection Logic, saw up to a 4x improvement, jumping from a 29% average baseline to 89% proficiency.

Technology Literacy Showed Strong Growth

Specific electronics and circuitry logic (understanding current direction) saw a growth from 38% at baseline to 94% improvement at endline, validating the success of hands-on activities.

Programme Engagement Was High and Balanced

The programme maintained a strong 75% overall session attendance and achieved near-perfect gender parity (52% Female / 48% Male) among the actively measured student cohort.

Programme Engagement

Percentage of overall session attendance.

Gender

A background image of two students in school uniforms. On the left, a girl with glasses and a dark blue vest over a yellow shirt. On the right, a boy in a tan shirt. They are both looking down at a document or book. A semi-transparent blue circle is overlaid in the center, containing the text.

Percentage

22

Centers across
INDIA

PROGRAM OVERVIEW

For thousands of young dreamers, Bulandi became the turning point - a leap from uncertainty to empowerment. Each success story reflects resilience, self-belief and the transformative power of opportunity.

Bulandi stands tall as Bright Future's flagship youth development initiative, empowering adolescents and young adults aged 18–25 to make informed career choices and transform their passion into purposeful livelihoods.

Through Bulandi - Youth Development & Training Centres (YDTCs), the program offers safe, inclusive, and inspiring spaces where youth explore opportunities, gain professional training, and build the confidence to take charge of their lives.

GOAL

To assist young adults in attaining the knowledge, skills and experiences required to build sustainable livelihoods & uplift their family well being.

PROBLEM STATEMENT

India's growing youth population presents a demographic opportunity, but urban youth from marginalized communities face barriers to accessing education, acquiring relevant skills, and securing meaningful employment. Challenges such as poor-quality education, economic disparity, social stigma, and a lack of alignment between educational curriculum and job market demands leave many youth in a cycle of poverty and underemployment. Bright Future addresses these barriers by providing holistic support that empowers youth to overcome these challenges and become leaders of socioeconomic change within their communities.

PROBLEM	SOLUTION
Educational Barriers Limited access to quality education. Lack of awareness about available career paths	Establish Learning Centers Scholarship Programs Career Counselling Workshops
Economic Disparities Insufficient financial resources for pursuing higher education or skills training	Entrepreneurship Training Microfinance Support Job Placement Assistance
Social Stigma and Discrimination Discrimination against certain groups based on societal biases. Gender-based discrimination limiting opportunities, especially for young women	Sensitisation Workshops Gender Inclusivity Initiatives Community Engagement
Technological Divide Limited access to technology and digital skills	Technology Education Centers Online Training Modules Tech Infrastructure Improvement
Mismatch of Skills and Job Market Lack of alignment between skills acquired and job market demands	Industry-Responsive Curriculum Continuous Learning Programs Job Market Awareness Campaigns

CAREER KHOJ

Career Khoj is a step into the world of aspirations. In the low-income communities where Bright Future works, many young individuals drop out of school or college not by choice, but due to circumstances such as challenging home environments, under-resourced schools, financial constraints, and the absence of mentors to guide them. While some youth may have a general idea of their career aspirations, they often lack clarity on the steps needed to achieve them and struggle to identify their own strengths and weaknesses.

As most are first-generation learners, connecting education to real-world career opportunities becomes difficult due to the lack of exposure and role models. To bridge this gap, Bright Future's Career Khoj Initiative helps youth discover and explore their career interests. Using an in-house Career Interest Tool, developed on the Holland's Scale, participants identify their interest areas and align them with potential job opportunities.

With guidance from the Bright Future team, youth are supported in developing both short-term and long-term career plans, empowering them to make informed decisions and pursue holistic career growth.

52% female aspirants, 47% male aspirants, and 1 Transgender aspirant participated actively in Career Khoj, gaining greater clarity on the career pathways they wish to pursue. Bright Future India has consistently supported aspirants in navigating their journey from having little awareness to developing a clear vision for their future. Through Career Khoj, young girls and boys were encouraged to reflect on how they envision themselves and, most importantly, identify the career pathways they aspire to achieve.

TOTAL NUMBER OF PARTICIPANTS: 4964

Transformation isn't
about becoming someone
new, it's about realizing
who we were meant to be.

TRANSFORMING INDIVIDUALS INTO

“Success
starts

challenge,
not from the
comfort zone”

COMMUNITY LEADERS

OUR YOUTH ADVISORY COMMITTEE (YAC) HAS PARTICIPATED IN VARIOUS ACTIVITIES

A successful tree plantation drive was held at the government hospital campus, promoting environmental awareness and encouraging sustainable practices among participants and the community.

YAC members celebrated World Inclusion Day with a poster-making activity that promoted diversity, equity, and inclusion. The initiative encouraged creative expression and strengthened youth awareness and motivation to foster inclusion in their communities.

YAC aspirants and school volunteers participated in a beach clean-up at Mahim Beach, collecting waste and engaging with locals. The team also spread awareness about Bright Future's work and programs.

YAC members performed a street play to raise awareness about education and job placement, motivating youth to pursue their goals and explore career opportunities. The initiative inspired positive action toward education and employment in the community.

Thirty YAC aspirants led a No Smoking Day rally, raising awareness about the harmful effects of tobacco. Through drama, banners, and pamphlets, they encouraged a smoke-free lifestyle and motivated community members to adopt healthier habits.

On 26th November 2024, 40 YAC members from four centers gathered for a successful cluster meeting, sharing experiences, challenges, and achievements. The collaboration strengthened youth networks, expanded outreach, and supported future initiatives.

BADI SOCH

FIRST GENERATION YOUNG
ENTREPRENEURS

PROGRAM OVERVIEW

This year, Badi Soch became more than a program - it became a movement of ambition. From dreamers to doers, young entrepreneurs learnt to believe that big change begins with thinking big.

Badi Soch, meaning "Think Big" - embodies the spirit of transformation. It inspires underprivileged youth from marginalized communities to dream beyond limitations and create their own path through entrepreneurship.

The program nurtures aspiring entrepreneurs by equipping them with **essential business knowledge, entrepreneurial skills and access to mentorship**. Each participant receives personalized guidance to help them overcome barriers, build sustainable enterprises, and achieve financial independence..

GOAL

Enable financial independence and social mobility by fostering a generation of youth who think boldly, act decisively, and create opportunities, not just for themselves, but for their communities.

"In business, you encounter countless pathways, but choosing the right one makes all the difference. Badi Soch helps young people identify that path with clarity and confidence."

BADI SOCH IMPACT SNAPSHOT

A NEW GENERATION OF LOCAL ENTREPRENEURS IS **RISEING**

Across Mumbai's densely packed slum communities, young people are turning grit into opportunity. Many run home-based ventures, support their families, and dream of scaling their ideas, but lack access to structured business knowledge.

The Badisocho programme steps into this gap with one purpose: to equip young entrepreneurs with the skills, confidence, and clarity needed to build sustainable local businesses.

In 2025, 1372 Young Entrepreneurs (YEs) came together for a 3-day residential Business Skill Development workshop, a turning point for many who had never before received formal entrepreneurship training.

WHAT WE DELIVERED

3 Days of Intensive Business Skill Development

A practical, hands-on curriculum focused on:

- Business planning & setting achievable goals
- Market research & customer segmentation
- Financial literacy: costing, pricing, cash flow
- Branding, storytelling & digital marketing
- Sales strategies & customer communication
- Decision-making, negotiation & problem-solving

The format blended peer learning, field tasks, simulations, and expert-led sessions. All contextualized for the realities of local community entrepreneurs.

**Building
Young
Entrepreneurs
From
India's Urban
Slums.**

WHAT CHANGED FOR THE 1372 ENTREPRENEURS ?

82%

1. GAINED BUSINESS CLARITY

Participants developed or refined their business plans, many for the first time, with defined customers, costs, and growth strategies.

2. IMPROVED FINANCIAL DECISION-MAKING

Youth recalculated pricing, identified hidden costs, and created simple cash-flow plans. Several made immediate changes in their product pricing.

76%

3. REPORTED INCREASED ENTREPRENEURIAL CONFIDENCE

Participants felt more prepared to approach customers, negotiate, and take calculated risks.

Many said they now
“feel like real entrepreneurs.”

71%

4.

EARLY SIGNS OF BUSINESS GROWTH (WITHIN 2 WEEKS)

New pilot ventures launched

Existing businesses revised
pricing & packaging

Some entrepreneurs reported
increased customer conversions

Informal peer-support groups
formed to share suppliers and
troubleshoot challenges

5.

EARLY SIGNS OF BUSINESS GROWTH (WITHIN 2 WEEKS)

The residential experience created meaningful bonds, a community of entrepreneurs who motivate and learn from each other long after the workshop.

A group of young men are gathered around a large, dark-colored industrial machine, possibly a lathe or a similar manufacturing equipment. They are looking intently at the machine, which has various gauges, dials, and a control panel. The setting appears to be a workshop or a factory floor. The lighting is bright, coming from overhead fixtures. The men are dressed in casual clothing, including t-shirts and button-down shirts. The overall atmosphere is one of focused learning or observation.

In a country where over a third of young people are still searching for stable livelihoods, Bright Future helps them turn **business aspirations into reality.**

AASMAAN

SKY IS THE LIMIT

National trends
reveal a crisis of
opportunity; our
work creates
pathways to
possibility for
numerous young
women.

PROGRAM OVERVIEW

Behind every employed woman stands a family that now dares to dream bigger.

Aasmaan is an initiative dedicated to empowering **young women** to rise beyond limitations and claim their rightful place as leaders of change. The program provides scholarships, leadership training, and skill development, ensuring that financial constraints never come in the way of education and ambition.

By addressing both economic and social barriers, Aasmaan nurtures confidence, independence, and purpose among its young women. It helps them develop essential life and leadership skills, enabling them to pursue higher education, secure meaningful employment, and become role models within their communities.

GOAL

Aasmaan is to create an ecosystem where young women dream boldly and act decisively, building a brighter, more equitable future for themselves and those around them.

STORIES

ISHRAT'S STORY

Twenty-year-old Ishrat has lived a life marked by both quiet determination and extraordinary resilience. After bravely battling blood cancer, she returned to her home in Govandi, an area where daily life is shaped by limited healthcare, poor infrastructure, and shrinking educational opportunities.

Her father works in a small local garage, and her younger brother is struggling after failing his 10th-grade exams. Amidst these realities, Ishrat often worried about her future, her dreams, and her place in the world.

Once a shy girl who hesitated to speak up, Ishrat had also let go of her dream of becoming a fashion designer. The challenges surrounding her, unemployment, domestic disputes, and substance abuse among youth, created a constant fear in her heart. But deep within her, she carried a quiet desire to create change for her community, even when she didn't know where to begin.

It was during this uncertain phase that a friend introduced her to Bright Future, a moment that would become the turning point of her life. At the Bright Future Center, Ishrat embraced learning. She acquired essential skills in computer use, grooming, and workplace ethics and explored career opportunities in retail and sales.

With consistent encouragement from the Bright Future team, Ishrat began participating in sessions, she once feared. She rediscovered her love for writing poetry. She learned to speak in front of others confidently, something she once thought she could never do. Slowly, she transformed from a hesitant learner into one of the most active and inspiring aspirants at the center.

Today, Ishrat stands as a symbol of what hope, guidance, and opportunity can achieve. She now serves as an active member of the Youth Advisory Committee and for the past eight months, she has been working at the Bright Future Center in Govandi as a Trainee Social Worker.

RAJ'S STORY

Raj Sandeep Rana, a resilient young student from Mumbai, faced numerous challenges that disrupted his education journey. His father's job in housekeeping, coupled with frequent relocations, including a move from Nalasopara to Bandra, caused a three-year gap in his schooling.

Despite these setbacks, Raj had previously excelled as a talented sportsman, representing his state in Taekwondo at the state-level Open Championship.

Raj keenly observes the struggles in his community, including limited educational opportunities, inadequate infrastructure, and sparse job prospects. These challenges mirrored his own daily life, leaving him disheartened about his prospects.

Introduced to Bright Future NGO through a neighbourhood campaign, Raj seized the opportunity to enhance his skills and knowledge. The NGO provided training in communication and basic IT skills, which he found immensely beneficial; this added a natural flair to everything he did. It also helped him refine his language and boosted his confidence to pursue his aspirations as a sportsman and a working professional.

Initially aspiring to become a policeman, Raj's experience at Bright Future broadened his horizons. Now aiming to establish his staffing firm, he actively participates in various training sessions offered by Bright Future's Badi Soch programme.

Raj's progress during his training has delighted his family, who commend his dedication and growth. They express gratitude to Bright Future for enabling Raj to excel and expand his ambitions without limits. Raj's journey exemplifies the transformative impact organizations like Bright Future can have on young lives, inspiring entire communities to strive for a brighter future.

KUMKUM'S STORY

Kumkum's story reflects how Bright Future supports young dreamers in creating change that reaches far beyond themselves.

Kumkum, a hardworking and dedicated young aspirant from the Naglai Dairy in Delhi, lives with her parents and sister. Her father is a driver, and her mother is a homemaker. Her elder sister, employed in a loan department, is the primary breadwinner of the family.

Her curiosity in technology brought her to the ITES course offered by Bright Future. Excited but a bit hesitant at first, she enrolled, unaware that this would be a transformative experience for her. Kumkum stood out as an enthusiastic and eager learner. Her punctuality and a positive attitude made her different from the crowd.

The ITES course at Bright Future brought a significant change that was noticeable not only to the facilitators and peers but also to her father. Initially hesitant about sending his daughter out to study, he found reassurance in seeing her speak fluently, express herself clearly, and carry herself with confidence. Kumkum thanks Bright Future for helping overcome her fears and considers this change as a milestone in her journey.

Bright Future's constant support and Kumkum's dedication secured her a position as an apprentice at Blue Tokai Coffee Roasters. She now contributes significantly to her family's income and continues to grow in the hospitality sector, meeting new people, facing new challenges, and growing each day. Bright Future not only gave her skills and a job but also played a major role in boosting her confidence. At the Bright Future graduation ceremony, her parents shared their heartfelt gratitude, expressing how proud they are of Kumkum's growth.

RESIDENTIAL TRAINING: LEARNING BEYOND CONFERENCE ROOMS

A Bright Future's Residential Training is a transformative experience that brings together team members and youth leaders to learn, connect and grow beyond regular sessions.

It strengthens confidence, teamwork and alignment with the organization's mission through shared learning and reflection.

As one participant shared, "I came here as a team member, but I'm going back as a believer in myself, in my team and in our purpose."

The training fosters empathy, collaboration and shared ownership proving that true transformation begins when people learn with open minds and open hearts. The trainings are conducted in both online and offline modes to ensure participation and seamless engagement Pan India.

NAZARIYAA

Where EXPERIENCE speaks!

The Nazariyaa initiative creates an intentional space that promotes change through meaningful conversations - conversations that are essential for our collective well-being and long-term transformation. This year, Nazariya also shaped leadership development through our Pan-India Managers' Meeting, where leaders came together to reflect, realign, and strengthen our vision. By fostering dialogue at every level, Nazariyaa continues to cultivate a culture of openness, shared learning, and transformative leadership across the organisation.

**A culture of growth

YUVARAMBH 2024:

Empowering Youth for a Brighter Tomorrow

Bright Future, in collaboration with the India CSR Network, successfully hosted Yuvarambh 2024 at Rangaswar Hall, Yashwantrao Chavan Centre, Mumbai. The event served as a dynamic platform for dialogue and collaboration between young people, industry leaders, and policymakers, focusing on the theme "Bridging the Gap of Accessibility, Mobility, and Employability."

The one-day conference inspired meaningful conversations around youth employability, inclusivity, and social mobility. Through keynote sessions and thought-provoking panel discussions, participants explored barriers such as limited access to quality education, gender inequality, and the lack of mentorship opportunities, while identifying actionable strategies to overcome them.

Mr. Kishore Palve, Founder of Bright Future, emphasized the importance of building discipline, values, and inclusivity as cornerstones for youth empowerment. Mr. Rusen Kumar, Founder of India CSR Network, highlighted how individual growth and collective progress are deeply interconnected, encouraging young people to take ownership of their personal and professional journeys.

The two-panel discussions delved deep into the challenges and opportunities shaping India's youth landscape. Experts underscored the role of CSR in fostering equitable opportunities and called for sustained efforts to empower marginalized groups, including the LGBTQ+ community. Panelists advocated for corporate and community-driven approaches that move beyond financial aid, creating enduring social impact through mentorship and active youth engagement.

Yuvarambh 2024 proved to be a transformative milestone for Bright Future, strengthening our commitment to build a generation of confident, skilled, and responsible young citizens. The event inspired over 300 leaders in social change to envision a future where accessibility and opportunity go hand in hand, marking a powerful beginning of collective action towards an inclusive and empowered India.

BRIGHT FUTURE TOWN HALL

Voices That Shape Our Journey

At Bright Future, Town Halls reflect our core values of transparency, dialogue, and shared ownership. These gatherings bring together teams from across locations to celebrate achievements, address challenges, and realign with our collective vision.

Filled with stories, insights, and shared learning, each Town Hall strengthens our trust, unity, and sense of purpose, reminding us that our greatest strength lies in staying connected and growing together.

CELEBRATING OUR PEOPLE

Great Place to Work Certified

This Year of Transformation reaffirmed what we've always believed - that our greatest strength lies in our people. Earning the Great Place to Work® Certification is more than a milestone; it's a celebration of the trust, learning, and growth we've built together. It reflects every moment of empathy, teamwork, and shared purpose that defines life at Bright Future. As we move ahead, this recognition fuels our commitment to keep transforming our workplace into a space where every voice matters, every idea inspires, and every individual continues to learn and grow with purpose.

PROUD TO BE CERTIFIED
AS A GREAT PLACE TO WORK

Where Aspiration turns into inspiration

TESTIMONIALS

TEAMS AND BENEFICIARIES

A senior professional with long experience of investing in Indian infrastructure. He was Head of Macquarie and subsequently helped set up National Highways Infrastructure Trust for the Government of India, He has been offering philanthropic support to Bright Future since his tenure at Macquarie. His genuine and dedicated support has enabled us to open new opportunities for our organization.

Supporting Bright Future gives me an opportunity to contribute to something deeply meaningful, helping young Indians realize their potential and turn their aspirations into reality.

I have always believed that empowering youth is one of the most powerful ways to strengthen our communities, our society, and ultimately, our nation. Over the years, I've seen how Bright Future's work goes beyond skill-building; it's about instilling confidence, purpose and hope.

"As we close this chapter in what has truly been a 'Year of Transformation,' I'm reminded of a principle I hold close: if you want to go fast, go alone; if you want to go far, go together. That spirit of collaboration and collective growth is what defines Bright Future, and it's what will carry the organization and the young people it serves, even further."

MR SURESH GOYAL
BOARD MEMBER

A senior professional with 21 years of diverse experience in the Development and the Corporate sectors. In the current role is heading the Programs with Axis Bank Foundation. This includes managing its strategy, governance, business-liaison efforts, research, impacts assessments and communication functions. Additionally, leading a team of ten people, supervising their work in program design and implementation, partner on-boarding and management, employee engagement, communication and events.

Bright Future India's purpose reflects commitment to empowering youth through a blend of life skills, domain-specific training, and strong employer linkages. Their community centric approach crates a strong foundation for self sustaining change.

DHRUVI SHAH
EXECUTIVE TRUSTEE & CEO
AXIS BANK FOUNDATION

Last year was about building strength and stability for the future. We improved our financial systems, introduced digital tools for better tracking, and ensured greater transparency and accountability.

Managing shifting donor timelines taught us the importance of teamwork, communication, and adaptability. These learnings made us stronger and more united as a team. As we move forward, I'm deeply thankful to everyone at Bright Future for their dedication and heart. Together, let's keep learning, growing, and creating lasting change for the young people we serve.

MR. PRIYESH SHINDE
FINANCE LEAD

DR. ARPEETA BHATIA
PROGRAM HEAD

FY 2024–25 was a year of steady growth and strong foundations for Bright Future. We expanded to new locations in Ahmedabad and Jabalpur and strengthened systems, processes, and leadership capacity across teams. While managing new setups and ensuring quality posed challenges, they also brought valuable learnings in agility, teamwork, and empathy. What truly stood out was our people their commitment, adaptability, and shared sense of purpose. This year reminded us that real change takes time, patience, and unity.

As we move forward, Our focus remains clear to keep empowering young people to dream fearlessly, act with confidence, and build better futures for themselves and their communities. I am deeply grateful to every team member, partner, and youth who continues to make this journey possible.

This Year of Transformation has been one of learning, connection and growth. Through open communication, training and reflection, we've strengthened trust and deepened engagement across teams.

Our people have not only adapted but transformed, turning challenges into opportunities and purpose into action. As we move forward, we continue to build a culture where every individual learns, leads and shines because at Bright Future, transformation begins with our people.

HEAD OF PEOPLES

POWERFULL

ENGAGEMENTS

A man with glasses and a dark shirt is speaking into a microphone. The shirt has a logo that says "Bright Future" with a colorful graphic above it. A large blue semi-circle is overlaid on the bottom left of the image, containing white text.

**2025 became the
Year of
Transformation
for Bright Future,
where purpose
evolved into
powerful change.**

TRANSFORMING FUTURES THROUGH SAMVAAD

In 2024–25, our Year of Transformation, Bright Future reimagined its employer engagement efforts through Samvaad, a series of Roundtable Conferences Held across Mumbai, Pune, Hyderabad, Delhi, and Bengaluru.

Evolving from “Chai Pe Charcha,” Samvaad created meaningful spaces where employers, industry leaders, and young people from vulnerable communities could engage in honest dialogue about aspirations, skills, and opportunities.

These conversations strengthened partnerships, expanded our employer network, and opened new pathways to equitable employment, affirming that transformative change begins when young voices are heard and valued.

MITRA MILAAP

Mitra Milaap was the initial event for the Mitra Milaap series, which will have more events each quarter, the idea is to keep the existing volunteers engaged and acquire new volunteers.

Mitra Milaap was an event filled with learning but it also paved a way for future and gave us a path to walk on.

BEACH CLEANING WITH ELECTROMECH

Beach and River cleaning with Electromech industries were two initiatives conducted as a part of the collaboration which also engaged our aspirants.

Social Justice Day was celebrated across centers with impactful activities including video screenings, a rally, and a courtroom drama.

A week-long "Voices for Change" campaign further engaged participants through videos, community drives, and pledges, promoting awareness and collective action for a just and inclusive society.

The initiative strengthened youth understanding of social justice, inspired dialogue on equality, and encouraged individuals to take action toward building fair and inclusive communities.

SOCIAL JUSTICE DAY

WOMEN'S DAY

Bright Future led a week-long campaign across all centers for International Women's Day, emphasizing men as allies in gender equality. Through storytelling, pledges, role-reversal activities, and dialogues, men reflected on empowering women and challenging stereotypes. Youth, staff, alumni, and community members united to celebrate women's achievements and promote shared responsibility for inclusive, equitable communities.

Bright Future celebrated World Inclusion Day across all centers, turning it into a movement for equity, respect, and belonging. Through storytelling, role plays, and youth-led discussions, participants explored exclusion and reflected on fairness. The event united diverse groups, fostering empathy and action, and strengthened Bright Future's commitment to creating inclusive, safe environments where everyone feels they belong.

WORLD INCLUSION DAY

SENSITIZATION SESSION ON DIVERSITY AND INCLUSION

Bright Future conducted a transformative session for 32 Center Managers and Social Workers to deepen their understanding of Diversity, Equity, and Inclusion. Through reflections, group activities, and I CARE value discussions, participants explored ways to foster inclusive infrastructure, behavior, and safe spaces. The session built empathy, encouraged honest sharing, and strengthened commitment to embedding DEI across programs and culture.

In collaboration with The Humsafar Trust, Bright Future conducted a transformative training series to strengthen awareness, respect, and allyship toward diverse gender identities and sexual orientations. Through personal stories, media sensitization, and legal insights, 120+ staff deepened their understanding, fostering empathy, challenging stereotypes, and reinforcing Bright Future's commitment to an inclusive, safe workplace.

LGBTQIA+CULTURAL COMPETENCY TRAINING

Thank you to every supporter, partner, and changemaker who made this journey possible. Your belief in our vision and commitment to young people has helped us take bold steps forward.

This shared strength helps us now to look ahead with an even greater purpose.

LOOKING AHEAD

As we reflect on the milestones of this year, we're more determined than ever to keep moving forward, with bigger dreams, deeper impact, and stronger partnerships.

In the coming year, we look forward to:
Reaching more young women through our fellowship and mentorship programs

Building stronger communities with values at the center

Creating new opportunities for every young person to thrive

Together, let's keep turning bold beginnings into brighter futures.
